Frontend: React.js, Next.js, HTML5, CSS3, Responsive Web Design
Backend & Database: Node.js, Express.js, Supabase, PostgreSQL, MySQL, MongoDB, JDBC, REST APIs
Mobile App Development: React Native, Expo
Core Java: OOP, Collections Framework, Multithreading, File Handling, Exception Handling
Database Concepts: DBMS, SQL Queries, Database Design, Joins, CRUD Operations
Developer Tools: Git, GitHub, IntelliJ IDEA, Postman
Computer Science: Data Structures & Algorithms, Operating Systems, Computer Networks, SDLC
Additional: Authentication, Role-Based Access Control, API Integration, Debugging, Testing

PROFESSIONAL EXPERIENCE

Setu Solutions | Web Developer / Full Stack Developer | November 2025 – October 2026

- Developed and updated responsive website pages and user interfaces for desktop and mobile screens.
- Built reusable frontend components and implemented interactive features, forms, input validation, and user flows.
- Worked on backend functionality, server-side logic, and integration between frontend applications and databases.
- Integrated REST APIs and handled application data, responses, and error states.
- Created and maintained database operations for storing, retrieving, updating, and managing application records.
- Tested website features, identified bugs, debugged issues, and improved application reliability and usability.
- Worked on website performance, cross-browser behaviour, responsive layouts, and general code improvements.
- Supported project updates from requirement understanding and implementation through testing, deployment support, and maintenance.
- Used Git and GitHub to manage source-code changes and keep development work organized.

EDUCATION

B.Tech in Computer Technology | Priyadarshini College of Engineering & Technology, Nagpur | 2023–2027 | CGPA: 8.17/10

TRAINING

Java Training — Binary Brains, Nagpur | Jan 2025 – Apr 2025
Covered OOP principles, multithreading, collections, file handling, exception handling, and JDBC connectivity; applied Java concepts in mini-projects.
Full Stack Java Internship Training — EduSkills
Hands-on training in Java programming, web application development, database integration, and full-stack concepts.

PROJECTS

Shree Furnitures & Electronics Website
Developed a business website to present the store, product categories, business information, and customer contact details in a clear, responsive layout.

Advocate Website
Created a professional website to present an advocate's profile and legal services, with clear navigation and contact/enquiry information.

SmartBook — Product Website
Built a separate marketing website introducing SmartBook, explaining its appointment-booking purpose, scheduling features, and reminders for prospective users.

SmartBook — Appointment Booking App
Worked on an appointment-booking application focused on scheduling and managing appointments through a dedicated app experience.

Bank Account Management System | Apr 2025
Built a Java application supporting account creation, deposits, withdrawals, balance checks, and transaction history. Connected the application to MySQL using JDBC for data storage and retrieval.

LEADERSHIP & ACTIVITIES

- Team Leader, College Project: Coordinated task allocation, version control, and project presentation.
- Project Coordinator, Community Field Project.
